

Arizona Carcinoid & Neuroendocrine Foundation, Inc.

invites health professionals, health professional students and patients/community members

to a panel discussion on

Carcinoid and Neuroendocrine Cancer

Tuesday, February 28, 2017 from 10 am to 2 pm MST

Rare Disease Day

Registration available at: <https://www.surveymonkey.com/r/neuroendocrinescancer>

Updates available at <http://azcnf.org/> or 520-762-6757

This event is geared toward health professionals, health professional students and community members/patients seeking to understand carcinoid and neuroendocrine tumors (NETs) in the context of their own professions and lives. Most carcinoid cancer and related neuroendocrine tumors (NETs) are found initially in the gastrointestinal system, but can also be found in, and metastasize to, other parts of the body. A constellation of symptoms (e.g. flushing, diarrhea, asthma, congestive heart failure, abdominal cramping and peripheral edema) is often misdiagnosed for many years. As with all cancers, early detection leads to more successful outcomes.

This half-day event from 10 am to 2 pm is comprised of two interrelated sessions:

10 am – Noon

- Brief History of Neuroendocrine Cancer
- Signs and Symptoms
- Early Diagnosis Opportunities
- Tests/Assessment
- Current Treatment Modalities

Noon- 2 pm

- Highlight of Patient Histories and Diagnoses
- New and Upcoming Treatment Modalities

Participation in this event will be available through:

- In-Person Attendance
 - University of Arizona, College of Medicine, Phoenix, Arizona
 - Banner/M.D. Anderson Cancer Center, Banner Gateway, Gilbert, Arizona
 - University of Arizona, College of Nursing, Tucson, Arizona
- Internet/Video Streaming
 - Provided through Arizona Telemedicine Program (ATP)

PANELISTS

- *Ronald Chamberlain, MD, MPA, FACS. Chief of Surgery, Banner MD Anderson, Phoenix, Arizona*
- *Philippe Lanauze, MD, Radiologist- Interventional Radiology, Banner MD Anderson, Phoenix, Arizona*
- *Boris G. Naraev, MD, PhD, FACP, Medical Oncologist, Banner MD Anderson, Phoenix, Arizona*
- *Susan Passalacqua, MD, Radiologist- Nuclear Medicine, Banner MD Anderson, Phoenix, Arizona*
- *Todd Perlstein, MD, MMsc, FSVM, Cardiologist, Tri-City Cardiology, Phoenix, Arizona*
- *Edward M. Wolin, M.D. Director of the Neuroendocrine Tumor Program, Montefiore Einstein Center for Cancer Care, Bronx, New York*
