## 1. Survey of interests/barriers to provide lower cost care with higher quality

ATP is a tool people don't know how to use

The program needs a refresh on what is needed by the community...diabetes program on the reservation, public health infrastructure, etc

Improve the SP Platform

## 2. Educate the legislator on opportunities to save money and improve care

Should funding for the ATC be increased in the post pandemic world?

Is there justification for how that support would be spent?

## 3. Workforce manager- enabling providers to work remotely

## 4. Role in professional education

## 5. Entrepreneur or service catalyst

# Arizona's Telehealth Future (ATF)

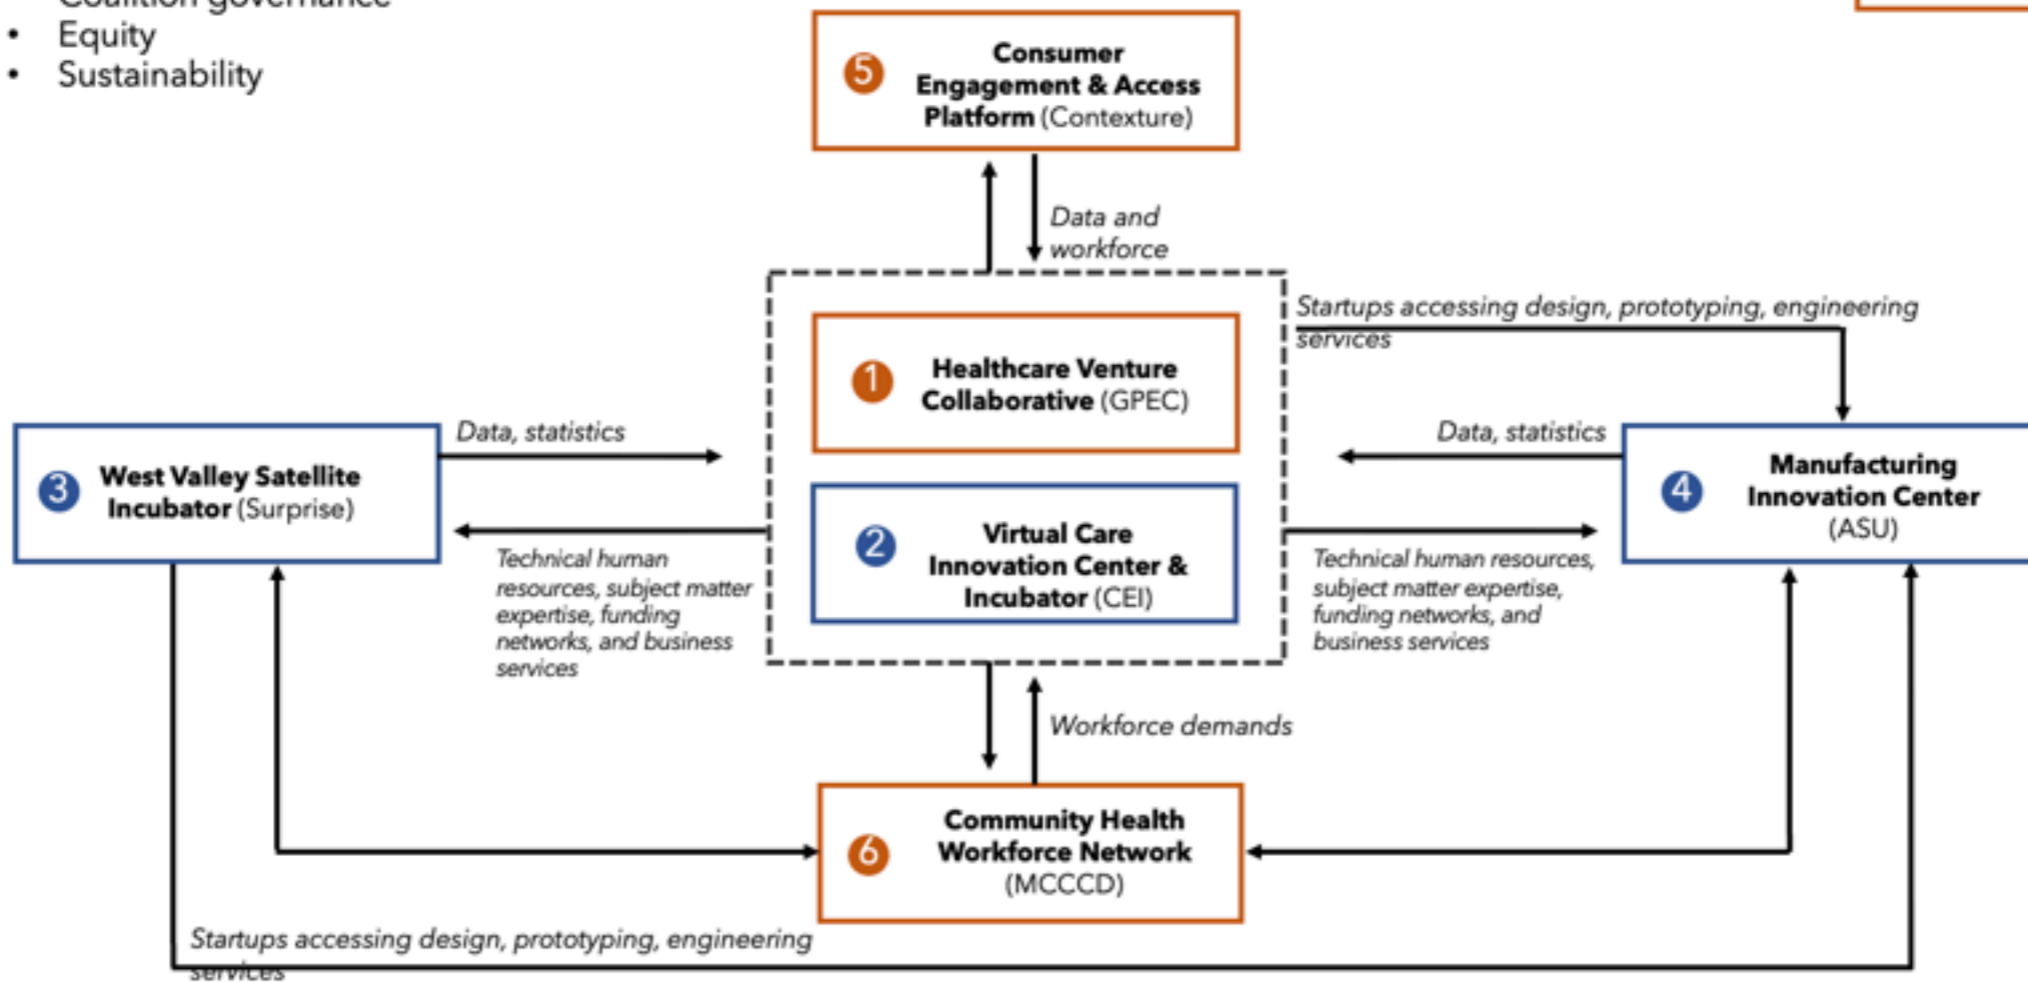

What would a Subscription Service to the ATP need to look like?

Regional Economic Competitiveness Officer

- Coalition governance
- Equity
- Sustainability

Construction  
Tech assistance
