The screenshot shows the website for the Nevada Governor's Office of Science, Innovation & Technology (OSIT). The header includes the NV.gov logo and the text "Nevada Governor's Office of Science, Innovation & Technology". A navigation menu lists: Home, About, News, Meetings, STEM, Equity, Broadband, Healthcare Workforce, Grants, and Report. The main content area features the OSIT logo and the "Nevada STEM" logo with the URL www.stemhub.nv.gov. Below this is a section for "Nevada STEM Hub - www.stemhub.nv.gov" with two columns: "Grants" (with links for "Current Funding" and "Previously Funded") and "STEM" (with links for "Regional STEM Networks" and "Designated STEM Schools"). The footer contains "Executive", "Legislature", and "Alerts" sections.

The graphic features the title "Nevada State Broadband Connectivity Strategy" at the top. Below the title is the OSIT logo and the text "Nevada Governor's Office of Science, Innovation and Technology". The bottom half of the graphic shows a "Welcome to NEVADA" sign in a desert landscape with mountains in the background.

Broadband Maps

In order to achieve our goal of universal service to broadband that is affordable, reliable, and scalable, OSIT has created the following maps. These maps will track investment and RFP opportunities, proposed and awarded projects, unserved and underserved locations, the digital divide and distress indicators, and other related data. Questions about the maps can be directed to Brian Mitchell.

The OSIT Broadband Mapping Portal

All maps have been moved to this portal. You can now find the State Broadband map and Nevada County Broadband maps in this one location.

Biden-Harris Administration Announces State Allocations for \$42.45 Billion High-Speed Internet Grant Program as Part of Investing in America Agenda

FOR IMMEDIATE RELEASE

June 26, 2023

News Media Contact

NTIA, Office of Public Affairs

Biden-Harris Administration Announces State Allocations for \$42.45 Billion High-Speed Internet Grant Program as Part of Investing in America Agenda

WASHINGTON – The Department of Commerce’s National Telecommunications and Information Administration (NTIA) today announced how it has allocated funding to all 50 states, the District of Columbia, and five territories to deploy affordable, reliable high-speed Internet service to everyone in America. This “Internet for All” initiative is a key component of President Biden’s “Investing in America” agenda.

States, D.C., and territories will use funding from the \$42.45 billion Broadband Equity, Access, and Deployment (BEAD) program from President Biden’s Bipartisan Infrastructure Law to administer grant programs within their borders. The President, Vice President, and Secretary of Commerce Gina Raimondo announced the allocations today at the White House.

Overview

President Biden’s Bipartisan Infrastructure Law provides \$65 billion in funding to support infrastructure planning, digital inclusion initiatives, and deployment projects that will connect Americans to the technologies, skills, and resources that are critical in today’s world. This initiative aims to make high-speed Internet affordable for all.

ADIN

Mission

Arizona Digital Inclusion Network (ADIN) is a growing, evolving coalition of organizations and individuals from across the state. We are affiliated with the National Digital Inclusion Alliance (NDIA) and working to advance digital equity in Arizona. We amplify, support and provide networking opportunities for community leaders interested in advancing digital inclusion within their communities.

We are committed to the following priorities:

1. Device access and affordability
2. Affordable, robust, equitably distributed broadband connectivity
3. Public digital skills instruction, digital navigation and technical support

We support sustainable public policies and funding strategies to meet these goals for the long term.

Vision

An Arizona where all individuals and communities have the information technology access and capacity needed for full participation in our society, economy and democracy.

FCC Consumer Outreach Toolkit

<https://www.fcc.gov/acp-consumer-outreach-toolkit>

The Affordable Connectivity Program was created by the FCC to help households struggling to pay for internet service. As part of that effort, the FCC is mobilizing people and organizations to help raise awareness about the ACP. The materials below are available for public use, and you can download and customize them to meet your needs. Eligible households can enroll in the ACP through an approved provider or by visiting [GetInternet.gov](https://www.fcc.gov/acp).

To learn more about the program or to become a partner visit www.fcc.gov/acp.

If you have questions about any of the materials below please contact ACPinfo@fcc.gov.

10 Tips for Outreach Partners

The FCC is mobilizing people and organizations to spread important information to their communities about the new Affordable Connectivity Program and how it helps people get access to the internet.

- 1. Help Your Community Enroll:** Sign up as an enrollment partner today at [GetInternet.gov](https://www.getinternet.gov).
- 2. Spread the Word:** Are you organizing school packet pick-ups or a local food drive? Download and print out ACP flyers to include in pick-up materials: [fcc.gov/acp-toolkit](https://www.fcc.gov/acp-toolkit).
- 3. Request Printed Materials:** Printed versions of FCC ACP Outreach Toolkit materials are available. Send an email to ACPInfo@fcc.gov and provide details on what you need.
- 4. Connect with Local Institutions:** Ensure schools, libraries, health clinics, and community centers know about the ACP and have the information they need to help eligible students and patrons enroll.
- 5. Involve Your Local Government:** Does your local employment assistance or social services office have ACP information? Put Outreach Toolkit materials in the hands of people who interact with the public – teachers, healthcare providers, and community workers.
- 6. Share ACP Info on Your Websites and Social Media:** The FCC has ready-to-post graphics, videos, and PSAs available for you to share with your network in the ACP Outreach Toolkit.
- 7. Request a Speaker for an Event:** Have a local event coming up? Want to train your members to serve as local ambassadors for ACP? Send a speaker request to ACPspeakers@fcc.gov.
- 8. Help Connect the Unconnected:** Download and print [application forms](#) and [application instructions](#) in English or Spanish. Households applying for ACP by mail should include a Household Worksheet and copies of their eligibility documentation: [Worksheet instructions](#) and [documentation guidelines](#).
- 9. Find Local Providers:** Browse listings by city, state/territory, or zip code at [affordableconnectivity.gov/companies-near-me/](https://www.affordableconnectivity.gov/companies-near-me/).
- 10. Let EVERYONE Know:** Spread the word about ACP on community bulletin boards, both online and around town!

Better Together

The integration of the University of Nevada, Reno School of Medicine, Nevada's first medical school, with Renown Health, northern Nevada's largest health system, serves to enhance the health of our community through increased access to care, innovative health care delivery, expansion of clinical research and training for the next generation of physicians and health care professionals.

UNLV Transforming Healthcare

University of Nevada, Reno
School of Medicine

Renown[®]
HEALTH

A Healthy Nevada Starts Here

UNR Med and Renown Health are partnering to achieve a shared vision of "A Healthy Nevada." Together, we are enhancing the health of our community, region and state through expanded clinical care, research and medical education. In June 2021, with approval from the Nevada System of Higher Education Board of Regents, the Renown Health Board of Directors, Nevada Governor Sisolak and both houses of the Nevada legislature, we formalized a relationship that dates back to 1977. Their efforts allowed UNR Med and Renown Health to establish Nevada's first integrated health system to advance our mission of supporting the health and health care of the people in communities we serve and advance innovation, research, medical education, clinical research and clinical trials, and improve affordability and access to quality, evidence-based care.
