

## Occupational and Physical Therapy Webinar Series Session 3: *Best Practices for Occupational Therapy via Telehealth* **Tuesday, April 26, 2022 ~ 5:30 PM MST/PDT**

### Presenters:

**Tammy Richmond, MS OTR/L, FAOTA**

Founder

Go 2 Care

*Value Based Evaluations and Intervention Strategies in Adult Telerehab*

Tammy Richmond is a leading expert in clinical rehabilitation and wellness services with over 30 years of experience. She is a consultant in practice operations and management, and an entrepreneur and leader in advancing emerging practice areas, including telehealth. Richmond's interest in telehealth began in 2008. Since that time, her name has become synonymous with telerehabilitation as she is a recognized leader in this emerging area. She has co-authored national and international standards and guidelines and spearheaded policy initiatives to facilitate telehealth adoption and reimbursement.

**Pam Hood Szivek, OTR/L**

Owner

Canadian Children's Therapy

*Adapting Pediatric OT Best Practices to Telehealth Delivery*

Pam Hood Szivek (pronounced "civic") is an Occupational Therapist with 30 years in paediatric private practice, 25 of those in Arizona and Oregon. She has an OT degree from Toronto, a business masters in Health Administration from Arizona State, and is published in AJOT and other peer reviewed journals. She has been presenting about OT telehealth since 2013, when she began treating children who lived in Oregon coast communities that lacked a pediatric OT and those families couldn't travel weekly for appointments. As telehealth was evolving over the past decade, Pam was a member of legislative and licensing board committees in Oregon that drafted telehealth laws and regulation there. Pam operates two small private paediatric practices, one based in Oregon, and one in BC Canada. The majority of her clients receive her services by telehealth. Her telehealth clients have been from as far away as Saudi Arabia and as close as 1 km away. Pam will offer practical logistics to help you be successful in your telehealth practice.
