

Occupational and Physical Therapy Webinar Series Session 2: Physiotherapy Quality Care via Telehealth/Videoconferencing

March 1, 2022

Luke Davies is a Musculoskeletal Physiotherapist, Exercise Physiologist and current PhD candidate within the Centre of Health, Exercise & Sports Medicine at the University of Melbourne. Luke has been working in private practice for the past 10 years and is a Lecturer and tutor at Western Sydney University, University of Melbourne and Macquarie University. Luke's PhD is focused on enhancing physiotherapy care delivered via telehealth with an emphasis on the development of training resources to assist physiotherapist upskilling in the area of telehealth.

Christina Crawford, PT, DPT, PhD is a Board-Certified Clinical Specialist in Geriatric Physical Therapy, specializing in telehealth services and program development to better serve rural Veterans. As a subject matter expert on fall prevention, she has experience educating patients, families, and staff. She takes a comprehensive approach evaluating and assessing the psychosocial aspects of an individual's care plan before collaborating with them and a team on their health care journey. As a cultured healthcare professional, she has experience coordinating teams, evaluating system needs, managing cases, and advising clients/other professionals through collaboration and transparent communication. She has historic leadership experience focusing on efficient community outreach programming, multidisciplinary integration, and cross-organizational bridging. She also has extensive experience working with diverse populations and providing cost-effective resolutions.

Alan C. Lee, PT, PhD, DPT, CWS, GCS is a professor at Mount Saint Mary's University in Los Angeles. Dr. Lee maintains clinical practice at Scripps Mercy Hospital, a level I trauma center, in San Diego with dual board certifications in geriatrics and wound management. He was the recipient of the APTA Minority Faculty Award in 2008 and Adopt-A-Doc Award in 2011. Dr. Lee graduated from Duke University, completed his transitional DPT from Creighton University, and his PhD from Nova Southeastern University. He is passionate about innovative practice in physical therapy and serves as the director of the technology Special Interest Group in the Academy of Leadership and Innovation (Formerly HPA section) and the APTA's Frontiers in Rehabilitation Science and Technology (FiRST) council steering telehealth workgroup. Currently, Dr. Lee is the co-chair of the APTA's clinical practice guidelines in telerehabilitation.
