

Improving Access to Quality Medical Care

The practice and delivery of healthcare is changing with an emphasis on improving quality, safety, efficiency, and access to care. Telemedicine can help you achieve these goals! The Arizona Telemedicine Program, and the Southwest Telehealth Resource Center invite you to a **free one-hour** webinar on the implementation and practice of telemedicine via a virtual platform.

Occupational and Physical Therapy Webinar Series Session 1: *Building Relationships and Rapport with Telehealth*

New Date: Tuesday, February 22, 2022 ~ 5:30 PM MST

The Arizona Telemedicine Program (ATP) has been providing educational programs for 25 years. Our mission is to be a world-class innovator in telemedicine and telehealth services, technologies, and education programs. With the increased use across all healthcare disciplines, ATP telehealth trainers are collaborating with occupational therapists (OT) and physical therapists (PT) in creating a unique webinar series specifically for virtual OT and PT healthcare professionals. This is a distance learning-interactive activity designed to teach about telehealth and how it benefits both practitioners and clients.

Educational Level: Introductory

Learning Outcomes:

- Describe two advantages of a virtual visit.
- List two strategies to improve client outcomes utilizing telehealth.
- Identify two current advances in teletherapy that can be incorporated within scope of practice.

NEXT DATE IN SERIES:

Session 2 – Mar 1, 2022
Session 3 – Apr 26, 2022
Session 4 – TBD

Conflict of Interest Disclosure Statement:

All Faculty, and Professional Development Planning Committee Members have disclosed that they do not have any relevant financial relationships with commercial interests that could constitute a conflict of interest concerning this educational activity.

Presenters:

Elizabeth Krupinski, PhD, FATA
Director
