

THE AZ CENTER FOR RURAL HEALTH WEBINAR SERIES

A webinar series focused on providing technical assistance to rural stakeholders to disseminate research findings, policy updates, best-practices and other rural health issues to statewide rural partners and stakeholders throughout the state.

Webinar:

Thursday, August 20, 2020

12:00 pm Arizona Time

211: What is it and how can it be useful to you?

Learning objectives:

1. Understand an overview of what 211 does
2. How providers and clients can access the service?
3. How to communicate with the 211 team?

TJ Reed has worked in the poverty/homeless sector for over 5 years in both micro and macro focused positions. He started as an advocate and case manager for victims of domestic violence. He then spent a year as a graduate research assistant for a firm that focused on public health research. On a macro level he managed the Single Adults Coordinated Entry System in Maricopa County and staffed the Maricopa County Homeless Management Information System (HMIS). Both of these positions involved working to develop systems that sought to make homelessness rare, brief and non-recurring through collaboration with stakeholders that include: Social service providers, medical professionals, mental health teams, emergency response systems, and more. He currently is the Manager of Community Navigation and Homeless Initiatives at Crisis Response Network focusing on data analysis and system planning, veteran and substance use programming and integration of social determinants of health into all lines of business. He has a Masters degree in Social Work and Public Administration and is committed to inspiring change through data driven decisions.
