

Improving Access to Quality Medical Care

The practice and delivery of healthcare is changing with an emphasis on improving quality, safety, efficiency, and access to care. Telemedicine can help you achieve these goals! The Arizona Telemedicine Program, and the Southwest Telehealth Resource Center invite you to a **free one-hour** webinar on the implementation and practice of telemedicine via a virtual platform.

Occupational and Physical Therapy Webinar Series Session 2: *Physiotherapy Quality Care via Telehealth/Videoconferencing* **Tuesday, March 1, 2022 ~ 5:30 PM MST**

The Arizona Telemedicine Program (ATP) has been providing educational programs for 25 years. Our mission is to be a world-class innovator in telemedicine and telehealth services, technologies, and education programs. With the increased use across all healthcare disciplines, ATP telehealth trainers are collaborating with occupational therapists (OT) and physical therapists (PT) in creating a unique webinar series specifically for virtual OT and PT healthcare professionals. This is a distance learning-interactive activity designed to teach about telehealth and how it benefits both practitioners and clients.

Educational Level: Introductory

Learning Outcomes:

- Describe common barriers for implementing telehealth in clinical practice.
- Identify and interpret current evidence for utilizing telehealth in physiotherapy
- List the most important domains when delivering physiotherapy via videoconferencing

NEXT DATE IN SERIES:

Session 3 – Apr 26, 2022

Session 4 – May TBD

Conflict of Interest Disclosure Statement:

All Faculty, and Professional Development Planning Committee Members have disclosed that they do not have any relevant financial relationships with commercial interests that could constitute a conflict of interest concerning this educational activity.

Presenter:

Luke Davies, DPT

University of Melbourne
Centre for Health, Exercise and Sports Medicine

Luke Davies is a Musculoskeletal Physiotherapist, Exercise Physiologist and current PhD candidate within the Centre of Health, Exercise & Sports Medicine at the University of Melbourne. Luke has been working in private practice for the past 10 years and is a Lecturer and tutor at Western Sydney University, University of Melbourne and Macquarie University. Luke's PhD is focused on enhancing physiotherapy care delivered via telehealth with an emphasis on the development of training resources to assist physiotherapist upskilling in the area of telehealth.
