Arizona Assets Map

Arizona counties and communities support a diverse economy and quality of life. The Arizona Assets map is an interactive tool that identifies infrastructure, land ownership, educational resources, community profiles and more. Click here if viewing the map on a mobile device.

To filter results, use the search bar in the top left of the map to narrow your search by city or zip. In addition, the toolbar allows users to search locations within a radius, view the legend, change the basemap and print or view information about the map.

In the top right of the map is an icon which allows users to turn layers, or categories, on and off.

To learn more about the categories click on the icons within the map.

Note: All locations are approximate due to data limitations

BEAD FIVE-YEAR ACTION PLAN

Arizona's vision is to provide dependable and affordable high-speed internet services to every community and access to the necessary digital skills, so every resident can fully participate in a digital world. The BEAD Five-Year Action Plan serves as a guide to achieving the following:

1. Provide universal connectivity to unserved and underserved areas and ensure high speed internet access is available to every household, business, anchor institution, Tribal Nations and community in Arizona.
2. Promote digital equity and inclusion through increased digital skills and access to devices for all Arizona residents including Tribal Nations and their members.
3. Create a 21st century workforce so Arizonans and Tribal Nations can succeed in the rapidly evolving job market where the state creates, grows and attracts high wage businesses to increase economic development.
4. Coordinate broadband infrastructure investments with investments in healthcare, education, public safety, workforce and economic development statewide and on tribal lands.
5. Promote broadband service pricing that is affordable to all Arizonans including Tribal Nations and their members.

CURRENT COVID-19 DATA/INFORMATION

Advancing **H**ealth **E**quity, **A**ddressing **D**isparities (**AHEAD AZ**) is a UArizona Center for Rural Health program funded through the AZ Department of Health Services (ADHS) – Centers for Disease Control and Prevention (CDC) National Initiative to address COVID-19 health disparities among populations at high risk for COVID-19 morbidity and mortality.

In collaboration with community partners across the state, the work of AHEAD AZ aims to promote community resilience focusing on the following areas:

- Community education and engagement
- Public health and healthcare workforce well-being and resilience, support, training, and education
- COVID-19 vaccination and recovery

Arizona Economic Resource Center

Grants | Services | Resources | News

All services and resources from the Arizona Economic Resource Center are available free of charge to eligible rural and tribal communities and nonprofit organizations. To date the Center, an initiative of Local First Arizona, has helped our state to win 144 competitive grants totaling over $40 million. Getting started is easy -- you're on your way by subscribing to this weekly newsletter of the latest funding opportunities! To explore how we can help you prep, apply for and manage competitive grants, request a free consultation.

Arts & Culture

- **Rolling:** Arts & Culture Grant - Virginia G. Piper Charitable Trust

  Piper Trust works side-by-side with nonprofit organizations as a partner, helping them to identify problems, build expertise, find solutions, and become continually stronger and more effective. The Trust strives to be a vital part of Maricopa County—not only as a source of leadership and financial support, but as a neighbor sharing a lasting stake in the county's future.

Economic Development

- **February 20, 2024:** Rural Business Development Grants - U.S. Department of Agriculture

  The purpose of the program is to promote economic development and job creation projects through the awarding of grant funds to eligible entities. Applications will compete in two separate categories, business opportunity grants and business enterprise grants, for use in funding various business and community projects that serve rural areas.

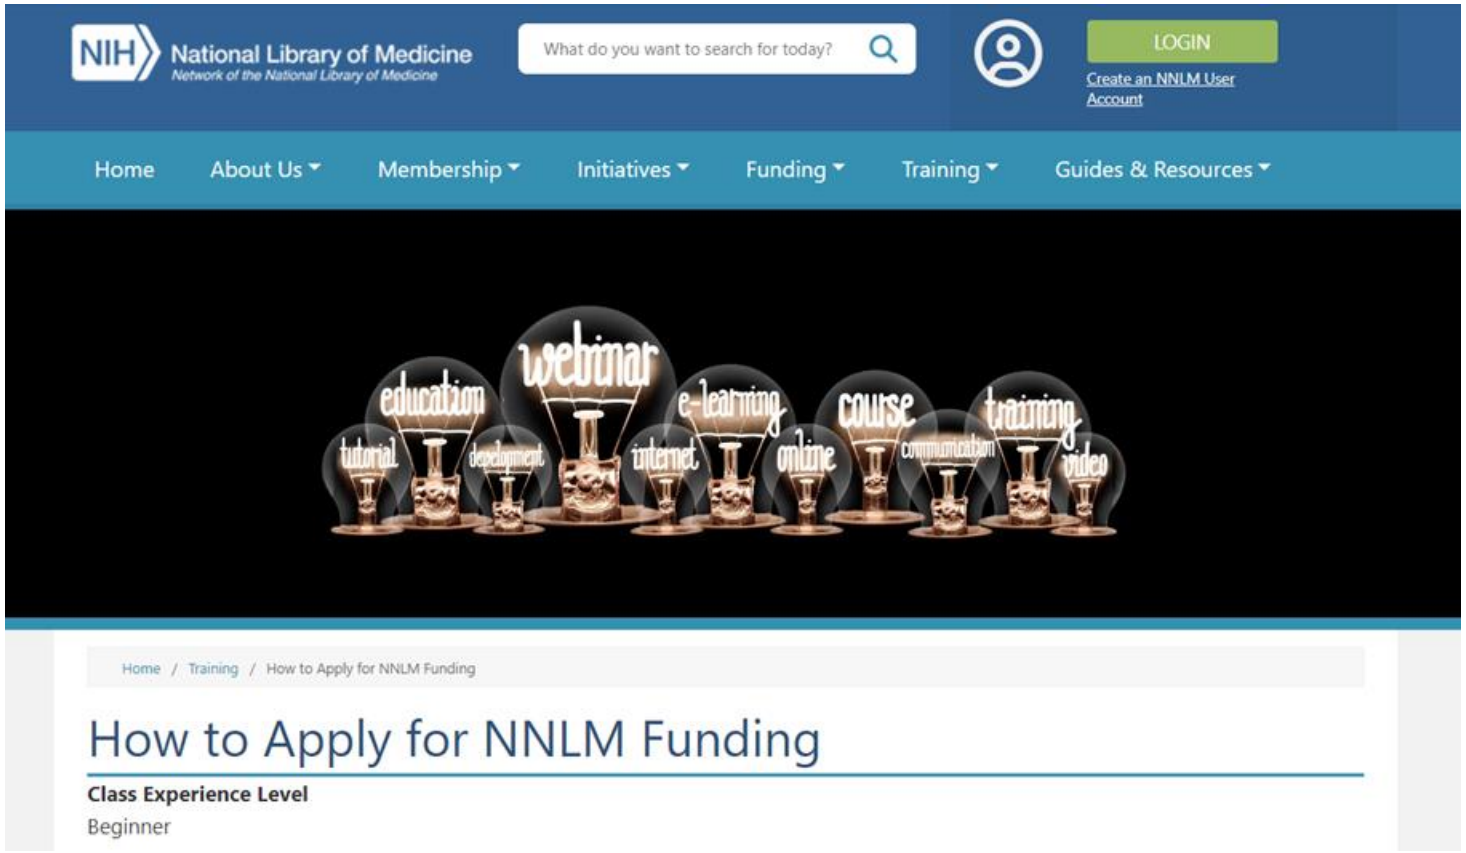
News: American Heart Association launches telehealth certification to improve quality of care

https://www.news-medical.net/news/20230705/American-Heart-Association-launches-telehealth-certification-to-improve-quality-of-care.aspx

> *"The explosion of telehealth use demonstrates a need for telehealth-centric learning to improve the standard of care. The American Heart Association's individual telehealth certification is a way for health care professionals to ensure they are providing the highest standard of care in this evolving delivery system."*
>
> *Andrew Watson, M.D., volunteer chair of the American Heart Association's Telehealth Certification Development Workgroup, an American Heart Association Center for Telehealth Expert Panel member and a practicing surgeon at the University of Pittsburgh Medical Center*



- Event Title: How to Apply for NNLM Funding
- Date(s): January 24, 2024
- Summary: Designed for beginning grant proposal writers interested in NNLM funding, this class presents a general overview of grant and funding processes, as well as the level of detail required for a successful proposal.

- **Platform/Location:** Zoom

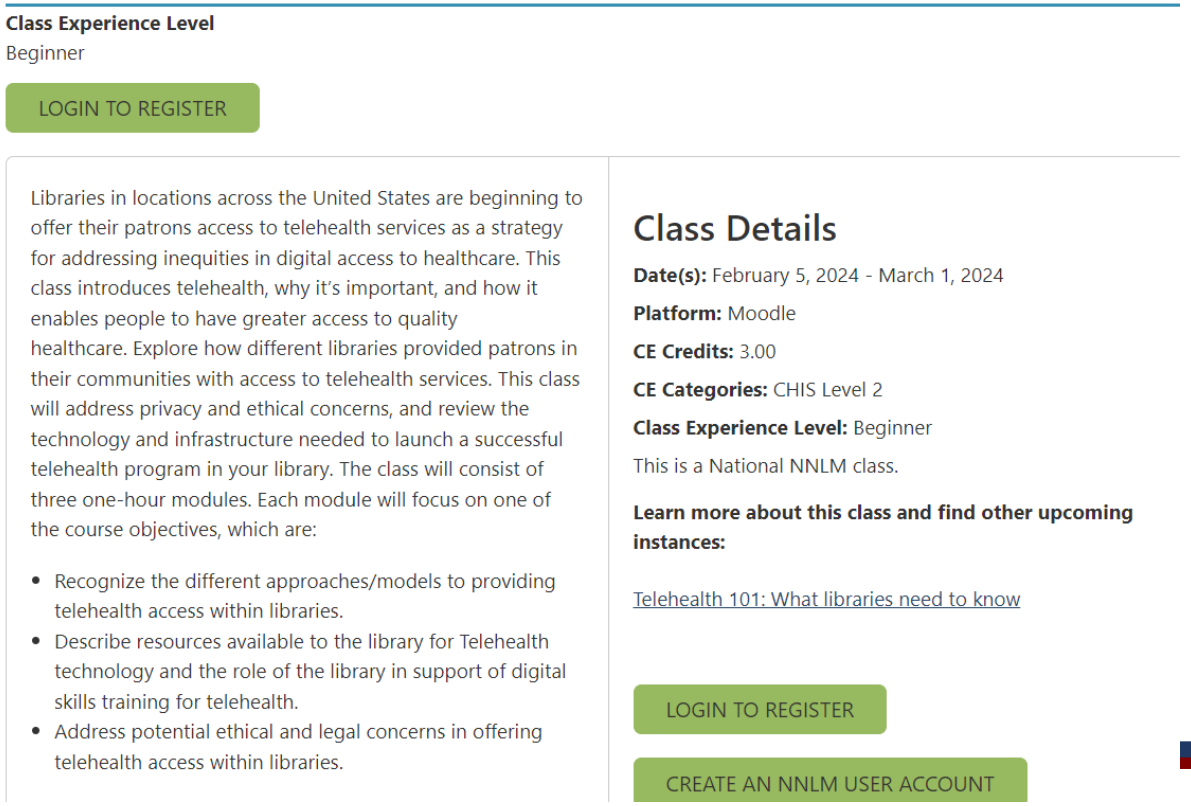
Telehealth 101: What Libraries Need to Know February 5 – March 1, 2024

https://www.nnlm.gov/training/class/telehealth-101-what-libraries-need-know-february-5-march-1-2024



Class Experience Level
Beginner

LOGIN TO REGISTER

Libraries in locations across the United States are beginning to offer their patrons access to telehealth services as a strategy for addressing inequities in digital access to healthcare. This class introduces telehealth, why it's important, and how it enables people to have greater access to quality healthcare. Explore how different libraries provided patrons in their communities with access to telehealth services. This class will address privacy and ethical concerns, and review the technology and infrastructure needed to launch a successful telehealth program in your library. The class will consist of three one-hour modules. Each module will focus on one of the course objectives, which are:

- Recognize the different approaches/models to providing telehealth access within libraries.
- Describe resources available to the library for Telehealth technology and the role of the library in support of digital skills training for telehealth.
- Address potential ethical and legal concerns in offering telehealth access within libraries.

NATIONAL CONSORTIUM OF TELEHEALTH RESOURCE CENTERS

Funded by the U.S. Health Resources and Services Administration (HRSA) The National Consortium of Telehealth Resource Centers (NCTRC) consists of 14 Telehealth Resource Centers (TRCs). As a consortium, the TRCs have an unparalleled amount of resources available to help virtual programs across the nation, especially within rural communities. Each TRC is staffed with telehealth experts to who are available to provide guidance and answer questions. As telehealth continues to gain more visibility and recognition in healthcare, the TRCs will remain positioned to provide assistance for all.
