

Improving Access to Quality Medical Care

The practice and delivery of healthcare is changing with an emphasis on improving quality, safety, efficiency, & access to care. Telemedicine can help you achieve these goals! The Arizona Telemedicine Program, Southwest Telehealth Resource Center, the Arizona Department of Health Services and the Maricopa County Medical Society invite you to a **free** webinar on the implementation and practice of telemedicine.

“How to Counteract Ransomware Attacks on Healthcare”

Wednesday, September 22, 2021 ~ 6:00 pm PDT

Please join us for this one hour presentation on the risk ransomware poses to healthcare systems and learn how to combat the threat .

Outcome Objectives:

- Describe the basics of ransomware and why it poses cybersecurity and other risks.
- Determine weaknesses in healthcare systems.
- Identify methods to counteract ransomware in medical settings.

Presenters:

***Jeanne E. Varner Powell, JD
Senior Legal Risk Management
Consultant, MICA***

As a medical malpractice defense attorney, Jeanne represented hospitals and health care professionals for nearly 20 years. In 2020, she left litigation to join MICA as the Senior

Legal Risk Management Consultant. In this position, she writes and speaks on medical professional liability topics and consults directly with insured physicians and practices.

David Shelley, President, BVA Inc.

David grew up in Washington DC, and has been living in AZ since 2004. He loves helping organizations stay current on cutting edge technology that is reliable, secure, and current. A very transparent individual, fair but stern.

Because of his talented staff, it allows him to be a very talented, driven, and competent technology advocate and leader. David has a strong background in project management, technical delivery, and customer relations.
