

Healthcare Workforce Stress and Resiliency: The Role of Technology

Tuesday, September 13, 2022

12:00-1:30 pm ET

11:00 am-12:30 pm CT

10:00-11:30 am MT

9:00-10:30 am PT

HRSA's Telehealth Learning Webinar Series

Hosted by the Office of Intergovernmental and External Affairs - Denver

This FREE Webinar is part of [HRSA's Telehealth Learning Webinar Series](#). The Series' goal is to highlight successful projects/best practices as well as resources to promote and further the use of telehealth technologies for health care delivery, education, and health information services.

The Webinar is designed for healthcare workers, students, trainees, provider organizations, and healthcare settings.

DESCRIPTION:

This webinar will feature expert panelists discussing best/promising practices and examples of how technology can be leveraged to address provider stress and promote healthcare workforce resiliency. Presenters include Dr. Candice Chen, George Washington University Milken Institute School of Public Health; Dr. Chris Fore, Indian Health Service Telebehavioral Health Center of Excellence; and Dr. Dee Ford, Medical University of South Carolina Division of Pulmonary, Critical Care, Allergy and Sleep Medicine. The webinar will be interactive with a discussion session following the panelist presentations, and resources will be provided.
