

## Improving Access to Quality Medical Care

The practice and delivery of healthcare is changing with an emphasis on improving quality, safety, efficiency, & access to care. Telemedicine can help you achieve these goals! The Arizona Telemedicine Program, Southwest Telehealth Resource Center, and InTouch Health invite you to a **free** webinar on the implementation and practice of telemedicine.

### Telehealth Webinar

Friday, March 15, 2019 ~ 12:00 pm PDT/3:00 pm EDT

# “Where are all the Psychiatrists? How Telepsychiatry is Solving the Psychiatric Shortage”

#### The objectives for this webinar are to:

- How telepsychiatry is an effective solution for the psychiatric provider shortage
- How integrated care is the solution to timely access to care
- The top telepsychiatry myths and the truth behind them

Jon Evans, CEO & Founder  
innovaTel Telepsychiatry

**Jon Evans** has been employed in the behavioral healthcare field for 30 years. Prior to founding innovaTel, Jon was the founding President and CEO of the first free-standing community mental health in NW Pennsylvania where he launched a successful telepsychiatry program, ultimately leading to the founding of innovaTel in 2014. Jon brings his experience in the community mental health setting to telepsychiatry where the mission remains unchanged, to increase access to care.

Lauren Lashbrook, Director of Strategic  
Partnerships, innovaTel Telepsychiatry

As the Director of Strategic Partnerships for innovaTel, **Lauren Lashbrook** works with organizations throughout the country to help them develop effective telepsychiatry programs to increase access to care within their communities. Over the past few years in the telehealth industry, her purview has expanded to navigating the complex and constantly evolving regulatory landscape for telehealth.
