This webinar is made possible with the support of our partners:

ARIZONA  
TELEMEDICINE  
PROGRAM

# Webinar Tips & Notes

- Audience is muted during the presentation.
- Enter your questions into the chat box.
- Please fill out the post-webinar survey
- Webinar is being recorded
- Recording will be posted on the AzCRH [www.crh.arizona.edu/](http://www.crh.arizona.edu/) and SWTRC [www.southwesttrc.org/](http://www.southwesttrc.org/)

Today's presentation:

## SUD/ODU Treatment in Primary Care: The Rural Health Center Experience

Da-Nell Pedersen, Director of  
Clinical Programs, Arizona  
Alliance for Community  
Health Centers

Andrew Lewandowski,  
Pharmacy Director,  
Canyonlands Healthcare

Jonathan Benitez, Manager,  
Behavioral Health  
Integration, North Country  
HealthCare

# SUD/ODU Treatment in Primary Care: The Rural Health Center Experience

May 21, 2020

Da-Nell Pedersen, Director, Clinical Programs

# About the Arizona Alliance for Community Health Centers (AACHC)

- Arizona's Primary Care Association since 1985 and comprises the state's largest network of Primary Care Providers.
  - 23 full members; 7 associate members
- Committed to working with a variety of partners to expand tools that health centers and organizations serving those in need can utilize to address the needs of their patient populations and improve health outcomes while continuing to demonstrate cost savings.
- Strong local, state, regional, and federal partners with which it leverages resources to accomplish goals.
- Provides a variety of educational opportunities for members, including peer networking committee which provide a forum for sharing of best practices among member colleagues for optimal healthcare delivery.

# AACHC SUD/ODU-Focused Activities

Training, Technical Assistance & Advocacy

# HRSA RCORP Implementation Grant

- Partnership with Sonoran Prevention Works, AZ Center for Rural Health, Graham County Substance Abuse Coalition and other community-based organizations in Gila, Graham & Mohave counties
- Focused on overdose prevention, harm reduction, community partnerships/infrastructure, increasing MAT services, education and training
- If you are located in one of those counties and are interested in joining our Consortium, the Arizona Rural Opioid Response Initiative, please contact me at [danellp@aachc.org](mailto:danellp@aachc.org)!

# Health Centers Have Responded to an Increasing Need for Substance Use Disorder (SUD) Treatment and Therapy By Building Their Capacity and Integrating Care

Health centers have **tripled** their behavioral health staff over the past 10 years.

Health center providers performed evidence-based screening, intervention, and referral procedure (SBIRT) for **more than 1 million patients** in 2018.

There are **4,899** health center physicians, certified nurse practitioners, and physician assistants with authorization to provide **medication-assisted treatment** for opioid addiction.

Nearly **95,000 patients** received medication-assisted treatment for opioid use disorder in 2018.

“[health] centers are a crucial link  
in a fragmented American health  
care system...”

Kirk Johnson and Abby Goodnough, New York Times, April 4, 2020

# **SUD Treatment in Primary Care: The Rural Health Center Experience**

**Andy Lewandowski, PharmD**  
**Director of Pharmacy**

# Overview

- ▶ About Canyonlands
- ▶ SUD Program
  - MAT and SBIRT
- ▶ Successes & Challenges

Canyonlands  
*Healthcare*

# Mission of Canyonlands Healthcare

*The mission of Canyonlands Healthcare is to promote healthier lives through affordable, accessible, integrated primary care.*

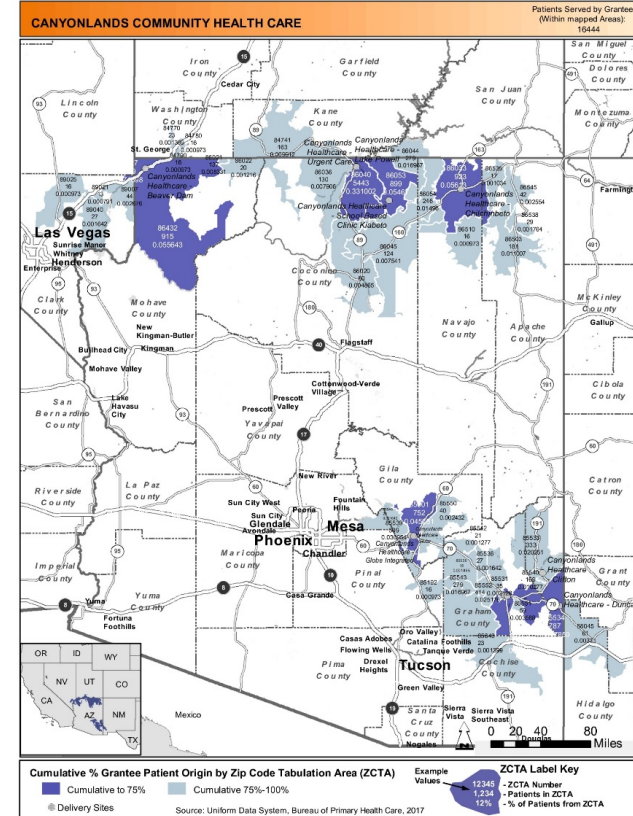

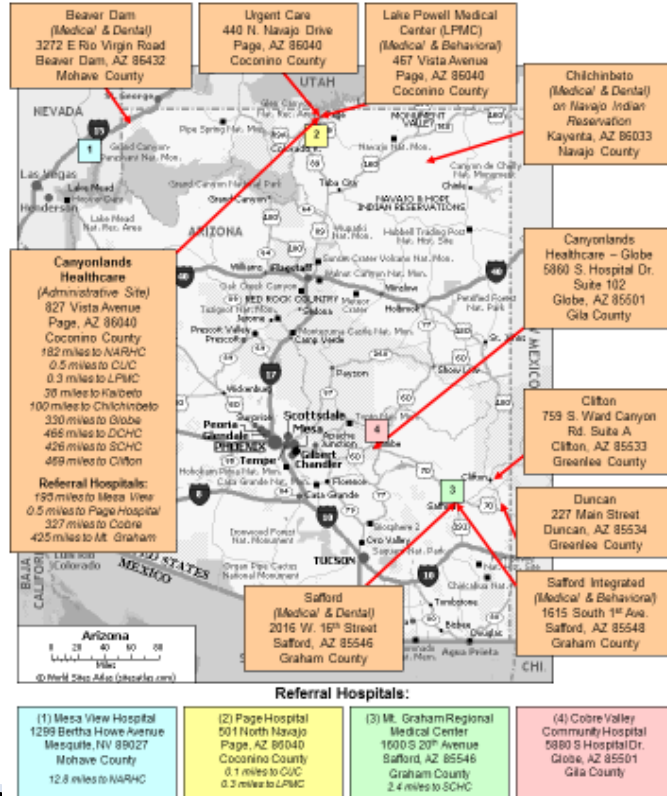

# About Canyonlands Healthcare

- Canyonlands began with the establishment of Lake Powell Medical Center (LPMC) in 1973, and was designated a Federally Qualified Community Health Center (FQHC) shortly after. Canyonlands is proud of its FQHC heritage.
- Canyonlands has grown to include nine (9) service delivery locations and one administrative location located in rural communities in Northern and Southeast Arizona.
- Services provided include: medical, dental, pharmacy, behavioral health and substance abuse.

# Service Area Map

## Canyonlands Healthcare Service Area Map

# About Canyonlands Healthcare Continued

- Provided services to 20,119 patients with 60,555 encounters in 2019.

USERS BY GENDER

USERS BY INSURANCE STATUS

USERS BY PERCENT OF POVERTY LEVEL

Users by Race/Ethnicity

# About Canyonlands Healthcare Continued

- ▶ 2019 Annual Expenditures Over \$16.3 million.

# The Creation of a SUD Program

- ▶ Canyonlands officially started a dedicated SUD program in 2018
- ▶ 2 Key Factors help drive this program:
  - Recognition of the need for these services.
  - Federal resources were available to support the viability of this program.

# Recognition of Need

- ▶ SUD statistics are abundant and available - June 5<sup>th</sup>, 2017  
Governor Ducey declares a Public Health Emergency to reduce Opioid Deaths in AZ
- ▶ Key statistics Canyonlands observed
  - SUD more likely in underserved, indigent areas
  - SUD more likely in minority populations
  - ADHS Reported 5,246 Opioid Deaths and 40,000+ Opioid Overdoses in less than 3 years (2017-2020)

# Funding Assistance

- ▶ AIMS – Access Increases in Mental Health and Substance Abuse Services (2017)
  - ▶ RHOP – Rural Health Opioid Program SBIRT (2018)
  - ▶ SUD-MH – Substance Use Disorder – Mental Health Services (2018)
  - ▶ SAMHSA – Increasing Access to MAT in Rural AZ for patients with OUD (2019)
  - ▶ RCORP – Rural Communities Opioid Response Program (Pending)
- 

# Growth of our MAT Program

## ► Timeline

- BH services start (2012)
- MAT award granted (2018)
  - SUD program officially starts
  - Dedicated SUD staff hired for program management
- 6 Clinic Sites Licensed (2018-19)
- SBIRT screening becomes standard (Sept 2018)
- 9 Providers become data waived (as of 2020)

# Integration within Canyonlands

- ▶ SBIRT screening
    - EMR template was key vs. paper charting
  - ▶ BH consults and treatments
    - Availability for immediate intervention or warm hand-offs
  - ▶ On-site pharmacy services
    - Stocks MAT medication and offers counseling
- 

# Utilizing Technology - Telehealth

- ▶ Canyonlands contracts with a Psychiatric Nurse Practitioner to provide Telehealth BH and MAT visits.
  - Especially valuable for those patients in very remote areas of our service area.
  - An on-site MA takes vitals, facilitates UDSs, and assists the Provider with the visit.
  - Patient's video conference with the provider with a portable wheeled workstation.

# Getting the Word Out

- ▶ Advertising Successes
  - Facebook, Snapchat, Social Media
- ▶ Dedicated Website
  - Private Chat/Messaging Function
- ▶ Printed Material
  - Simple and advertises our website.
- ▶ Community Involvement
  - New RCORP opportunity – Forming a collaborative with Hospitals, Community BH Agencies, Churches, Local law enforcement, Schools

# Where we Found Success

- ▶ Telehealth has allowed us to reach patients and clinics where dedicated staff resources are not always available.
  - ▶ Clinical Care Manager key to help coordinate the care.
  - ▶ Simplifying the patient experience (easy check-ins, dedicated online resources, educating staff).
  - ▶ Community Collaboration and Outreach helps strengthen the support for our program, creates more patient resources and helps educate and advertise.
- 

# Challenges

- ▶ Stigma behind SUD, specifically OUD is difficult to overcome.
  - Provider Buy-in sometimes a challenge
  - Only selective community support
- ▶ Patient follow through and engagement.
- ▶ Lack of necessary resources in remote areas.
  - Staff turn-over

# What's Next.....

- ▶ Extend more education to our Staff and Community Members
    - remove the stigma
  - ▶ Continue to build strong relationships with the Community Stakeholders.
  - ▶ Create an Outreach Coordinator and Peer Support Leader to help coach, mentor, and encourage our patients.
  - ▶ Expand our services to reach our entire patient population.
-

NORTH COUNTRY

---

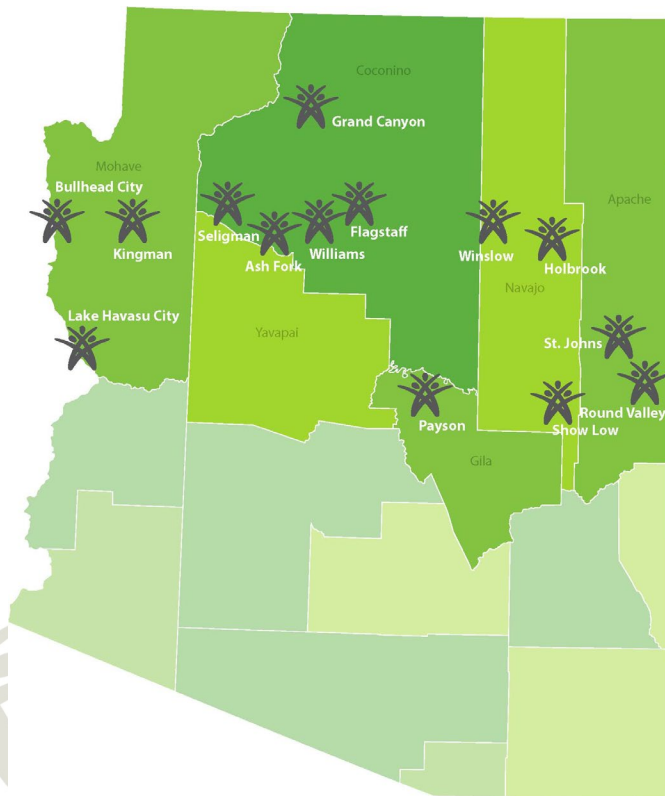

HealthCare

SUD Treatment in Primary Care Webinar  
Jonathan Benitez, LPC, LMHC

# Presentation Objectives

- Introduce North Country HealthCare
- Discuss the role of community health centers (CHCs) in addressing the healthcare needs of Arizona's uninsured and underinsured and the prevalence of SUD among CHC patients
- Highlight specific interventions that have been employed in North Country to address the needs of patients with SUD
- Understand the challenges and opportunities related to addressing patients with SUD in a primary care setting

# North Country HealthCare

- FQHC since 1996
- Serves roughly 60,000 patients
- 20 clinics
- Services include:
  - Primary care
    - OB/GYN, Peds, Internal Med
  - Integrated Behavioral Health
  - Pharmacy
  - Outreach programs
  - Dental
  - Education/Training
  - Physical Therapy
  - Urgent Care

# Role of CHCs in Caring for Underserved

- Comprehensive services to optimally address health care needs for entire lifecycle
- Sliding Fee Scales and target population <200% FPL
- Health Center patients have co-occurring behavioral health concerns
- Integrated Behavioral Health Consultants serve as part of the primary care team
  - Behavioral health and health behaviors
  - Positive screens for SBIRT, ORT, AUDIT, DAST and ASAM (stage of change)

# NCHC SUD Prevalence among Western Region Patient Population

	Count of Patients	Sum of Alcohol	Sum of SUD	Sum of Tobacco	Sum of MultipleNoCount
Bullhead Clinic	2689	96	133	173	54
Bullhead Telehealth	5	0	1	1	0
Kingman Clinic	6096	144	191	378	68
Kingman Clinic TH Home	1	0	0	0	0
Kingman Telehealth	12	1	0	1	0
Lake Havasu Clinic	4632	176	139	179	46
Lake Havasu Telehealth	4	0	0	0	0
Mohave Mental Health Integration Clinic	226	18	33	27	14
Grand Total	13665	435	497	759	182

# NCHC SUD Interventions

1. Implemented SBIRT (Screening, Brief Intervention, Referral to Treatment) screening and 2 question prescreen for all adults 1/year (5 year grant)
  - Established comfort among providers and patients on alcohol and drug use questions
  - Created pathways to tx for patients in a stage of readiness
  - Allowed providers to know tx was available

# NCHC SUD Interventions

2. Established chronic substance users (90 days or more on 50 MED or more) as a high risk population for the health center

- Created integrated care team workflow
- Created a cohort
- Established metrics (PEG, SBIRT, ORT, Naloxone prescribed)

3. Implemented Medication Assisted Treatment (MAT) care

- Piloted at one primary care clinic by integrated team (PCP, MA and BHC) for two years
- Success led NC to want to expand it

# NCHC SUD Interventions

## 4. Dedicated SUD Care Coordinator

- Funded through AHCCCS SOR
- Based in Mohave County
- Community collaboration, Naloxone kits, links to services and coordination of care

## 5. Established an outreach pathway for Naloxone kits for family members/peers

## 6. Conduct HIV/Hep C Rapid Testing in community for high risk populations

- Adopts a harm reduction approach
- Links with services and care for reactive patients

# NCHC SUD Interventions

## 6. Pain Management ECHO Project

- Participation of ECHO cohort

## 7. Pharmacy Medication Management

- Clinical pharmacist review and recommendations.

# Challenges and Opportunities

- Recruitment of professional staff and BHCs
- Time constraints related to addressing SUD in primary care setting
- Barriers to treatment services
- Inconsistent strategy implementation across large geographic area
