

Improving Access to Quality Medical Care

The practice and delivery of healthcare is changing with an emphasis on improving quality, safety, efficiency, & access to care. Telemedicine can help you achieve these goals! The Arizona Telemedicine Program, Southwest Telehealth Resource Center, and the Rural Health Information Hub invite you to a **free** webinar on the implementation and practice of telemedicine.

Telehealth Webinar

Thursday, September 12, 2019 ~ 12:00 pm PDT

“RHIhub, Your First Stop for Rural Health Information”

The objectives for this webinar are to:

- Introduce the Rural Health Information Hub (RHIhub)
- Provide an overview of RHIhub’s resources, tools and services
- Learn more about RHIhub’s Telehealth topic guide, Rural Telehealth Toolkit, and telehealth rural project examples

Makenzie M. M. Atherton, MPH
Content Development
Coordinator

Makenzie M. M. Atherton serves as the Content Development Coordinator for the Rural Health Information Hub (RHIhub) at the Center for Rural Health (CRH) at the University of North Dakota (UND) School of Medicine & Health Sciences in Grand Forks.

She assists RHIhub with project coordination and finding resources needed to support rural health projects. She is also responsible for compiling, developing, and maintaining data and research content.

Prior to joining the RHIhub, Makenzie worked for the CRH as a systems evaluator for a rural healthcare grant that provided medical equipment to rural emergency medical services and hospitals in seven Midwest and Mountain West states.

Makenzie has a bachelor of education and human sciences degree from the University of Nebraska-Lincoln and a Master of Public Health from UND. She is originally from Bismarck, North Dakota.
