Technology for Telehealth: No longer the tail wagging the dog!
ATA 2018
Healthcare technology moves fast. Consumers are fickle. Competition is fierce. Will your innovation stand out from the crowd? Share it and shop it at the ATA18 Pitch Jam!

15 minutes that can change your company’s future.
The American Telemedicine Association’s Annual Conference, ATA18, is the world’s largest innovation & networking event focused on telehealth and telemedicine. At ATA18, our attendees aren’t just interested in healthcare technology. They are the 5000+ clinicians, academics, policy makers and decision makers closest to telehealth and telemedicine. Where better to gain valuable feedback from this super-concentrated micro-segment?

We’re looking for 6 promising startups to pitch to our panel of patients, clinicians, tech industry insiders and investors. Startups will have 5 minutes (12 slides max) to pitch, 7 minutes to field questions from our judges, and 3 minutes to close.
