

Improving Access to Quality Medical Care

The practice and delivery of healthcare is changing with an emphasis on improving quality, safety, efficiency, & access to care. Telemedicine can help you achieve these goals! The Arizona Telemedicine Program, the Southwest Telehealth Resource Center and the UArizona Health Sciences Genetic Counseling Graduate Program invite you to a **free** webinar on the implementation and practice of telegenetics. This is the first in a series of six monthly webinars discussing the role of genetics in the clinic and the use of telgenetics to improve access to genetics services for patients and providers.

Thursday, December 12th ~ 12:00 pm Arizona Time

(11am PT; 12pm MT; 1pm CT; 2pm ET)

“Defining and Discussing Telegenetics”

Learning Objectives:

1. Describe telegenetics and the role of genetic counselors in telegenetics
2. Discuss the growth of the Telegenetics field and current trajectories
3. Apply standardized guidelines for telegenetic counseling

Chris Stallman, MS,
LCGC

In 2019, **Ms. Chris Stallman** was appointed Clinical Coordinator of the University of Arizona Genetic Counseling Graduate Program. In 2018, she was appointed Program Coordinator of MotherToBaby Arizona (previously known as the Arizona Pregnancy Riskline). She is a Clinical Instructor in Pharmacy Practice-Science at the University of Arizona with experience in genetics, genetic counseling, and teratology. Ms. Stallman provides education to medical students, residents, and other allied health professionals as well as the community.

Ms. Stallman received her master’s degree in Human Genetics in 2011 from the Joan H. Marks Graduate Program in Human Genetics at Sarah Lawrence College. She has been ABGC- certified since 2012. Her clinical experience includes prenatal genetics, teratogen exposures, pharmacogenetics and cardiovascular genetic counseling. She served as Education Committee Chair for the Organization of Teratology Information Specialists from 2012-2016. Ms. Stallman is a member of the National Society of Genetic Counselors, and the Organization of Teratology Information Specialists.
